

Fact Sheet

**Luna 2**

**A dazzling appeal to the senses... total privacy and 5-star boutique luxury in a relaxed and informal atmosphere.**

Occupying a stunning beachfront location, in the heart of the 'Chelsea of Bali', this exceptional villa is a masterpiece of modernist design, and is the first property of its kind in Bali to offer the exclusivity of a 5-star boutique hotel, whilst maintaining the peaceful seclusion of a private home...

Inspired by the avant-garde architecture of the late 50s and early 60s, Villa Luna2 is unashamedly modernist. But while it effortlessly reflects the period, this sumptuous villa is in fact entirely 21st century. Inspired by European modern classics, the interiors have been custom-designed throughout with a painstaking eye for detail.

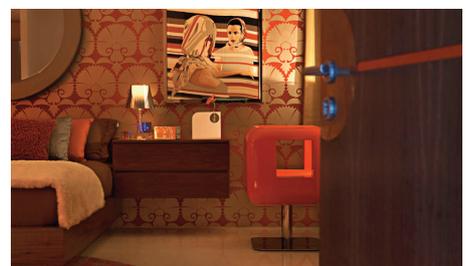

The five festive bedrooms cover the spectrum, from a rose-coloured children's room, equipped with traditional and high-tech toys, to a shocking violet adult lair; while the en-suite bathrooms are outfitted with the latest Philippe Starck cube loos.

Fine wine and dining are integral to the Luna2 experience. You'll enjoy the undivided services of three internationally acclaimed chefs, a professional butler, barman, waiters, drivers and a baby-sitter, all of whom are trained to be totally discreet, and yet at all times attentive to your every whim.

With its expansive, well-groomed lawns and terraces and breathtaking views of the ocean, this 5-bedroom luxury villa may be rented in its entirety, or serves equally well as an exceptional venue for personalised events, providing the ultimate in outdoor chill and lounge 'zones'.

The ground floor's geometric simplicity and open plan lets the party flow. From the sunken living room, with requisite Noguchi coffee and groovy geometric carpets woven in Vietnam, to the well-stocked mirrored bar, extending outside on cool grey slabs to a fishpond inhabited by psychedelic-hued aquatic life.

## Fact Sheet

# Luna 2 cont

Enjoy the company of Marilyn Monroe, as she appears as a Bisazza-tiled mosaic at the bottom of a 20m swimming pool that reaches towards the foaming surf of Seminyak Beach; while a few footprints in the volcanic sand lead to Ku De Ta, the perennially packed lounge where Bali's most beautiful bodies congregate for sublime sunsets.

Return to the villa and slide onto transparent orange Pedrali chairs in the Pop Art-filled dining room, or organise a seated dinner for 60 on the buzz cut lawn. It's your call.

Enjoy twice-baked goats cheese souffle with tomato jam, and wagyu tenderloin, porcini mushrooms and foie gras wrapped in pastry, or comfort foods at any hour for vacationers craving scrambled eggs with caviar, and homemade chocolate Éclairs.

Being fully air-conditioned throughout, Luna2's expansive interior space makes it the perfect alternative to alfresco entertaining - a rarity in Bali. Think nothing of throwing an indoor cocktail party for up to 100 guests!

World-class cuisine from Executive Chef Danny Drinkwater combines with matchless comfort and service to make Luna2 the ultimate experience in exclusive living.
